SCIENTIFIC PALMIST  
At Porteous & Mitchell Co.'s.

Madame Corinne, a scientific palmist  
of considerable note is now at The  
Porteous & Mitchell Co.'s store, and  
will be there all this week. This will  
be of considerable interest to the lovers  
of the fascinating art of palmistry,  
which has been practiced for hundreds  
of years and handed down by the an-  
cients to succeeding generations. She  
gives consultations in a booth in the  
crockery department, where one can  
have a reading while Madame guarantees  
to be satisfactory. Madame Corinne  
has been quite successful and popular  
in all the principal stores in the  
cities throughout New England, and  
return engagements have been booked  
in the majority of instances. All inter-  
ested in palmistry should make it a  
point to consult the Madame this week.

INTEREST IN COMPANY.  
At New Haven Gas Employers Own  
\$15,340 of Company's Stock.

Under the profit sharing plan put in  
effect by the New Haven Gas Company  
April 1, 1907, by which all employees,  
except the executive officers, are cred-  
ited with an eight per cent. dividend  
on their salaries, payable in stock of  
the company, 400 shares have been  
transferred to the employees. These  
shares, totaling \$48 a share as the pre-  
sent market value, are worth in the ag-  
gregate of \$19,200. This net sum  
is to be turned over by the company to  
its workmen, from office boys upward,  
and that this plan is actually favored  
by them goes without saying. On the  
distribution for the quarter ended Jan.  
1, as announced yesterday, 75 shares  
were transferred to employees.  
According to this plan eight per cent.  
is credited to the wages of every em-  
ployee who has been with the company  
for one year, which is the same rate at  
which dividends are now paid annually  
to the stockholders. If the amount  
credited to any employee is equal to the  
market value of one or more shares of  
the stock then a certificate represent-  
ing the shares or shares is transferred  
to the employee. The certificate is in-  
alienable, and the balance credited to  
the employee is carried forward into the  
next quarter.  
Very little of the stock turned over  
to the employees has been sold, and the  
added interest which the workmen take  
in the welfare of the company has  
made the plan very successful from the  
viewpoint of the company's officials.

DEER'S LEG BROKEN.  
Probably the Result of Shot from  
Someone's Gun.  
Game Warden Barnes of Plymouth  
was notified by C. Fisher, who has  
care of the Williams estate at Thom-  
aston, that a deer shot by the farm  
broken its leg. Mr. Barnes and a num-  
ber of local young men proceeded to  
the place designated with the inten-  
tion of putting the deer out of its  
misery.  
After following a trail of blood about  
half a mile, the animal was dis-  
covered lying in a clump of bushes.  
On their approach he scampered off  
up the mountainside towards Watertown,  
where all trace of him was lost. Those  
nearest to the animal plainly saw that  
his hind leg was broken, and the gen-  
eral opinion is that it was shot by  
some person in the vicinity.

The ideal meal consists of bread,  
and cheese, according to Dr.  
J. E. Squire, who delivered a lecture  
to the British National Health soci-  
ety. "These foods," he said, "contain  
all the elements necessary for the  
proper working of the body, and thus  
form a complete meal."
